

Tech Valley Communications introduces:

*FirstLight*, is Tech Valley Communications' new, state-of-the-art fiber optic communications network. *FirstLight* provides local businesses with advanced voice, data, and Internet services on fiber. Until recently, fiber services were only available to large businesses located in big cities, but now, Tech Valley Communications' *FirstLight* fiber network can bring these services directly to you.

### *Why Fiber Optic Service?*

- ◆ *FirstLight* provides multiple levels of high-speed voice, data, and Internet access. This means our services can be adjusted to meet the requirements of your business, whether it be big or small.
- ◆ *FirstLight* has an enormous capacity. It can deliver more than 1000 times the capacity of a traditional T1 circuit.
- ◆ *FirstLight* offers guaranteed network reliability, meaning telephone and data lines will provide measurable, guaranteed quality of service levels.
- ◆ *FirstLight* is owned exclusively by Tech Valley Communications. This ownership allows TVC to provision and service your entire network, end to end, on our own fiber. This is total accountability.

### *Capacity*

- ◆ 1 Mb/s through 1 Gb/s

### *Available Services*

- ◆ Fiber delivered voice services
- ◆ High Capacity Internet access
- ◆ Private Networking
- ◆ Primary Rate ISDN
